

# Music Without Limits. Any Platform. Every Business.

While others are trying to get into the hardware game, Custom Channels is doubling down on what we do best and making your installs more profitable in the process.

Be the integrator who delivers  
the complete experience.

# What's new at Custom Channels.

Q-SYS LIBRARY VERIFIED

## Q-SYS VERIFIED PLUGIN

### Licensed music for Q-SYS.

Access 150+ licensed playlists through the Custom Channels Q-SYS Verified Plugin.

Available in Q-SYS Library, with centralized control and streamlined deployment for commercial audio environments.

## OPEN MEDIA PLATFORM

### Audio for Retail Media Networks.

Programmatic control of licensed audio, including scheduling, ad insertion, zone control, and proof-of-play reporting.

Vendor-neutral and hardware-agnostic, integrating with existing CMS, DSP, signage, and AV systems.

# Steady BRAND

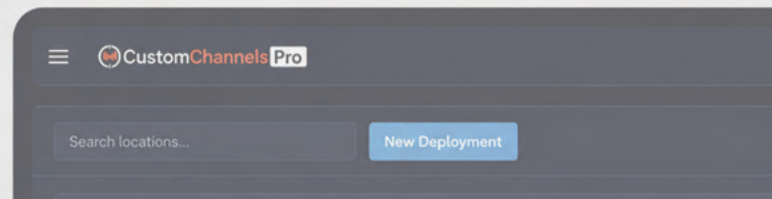

## INTRODUCING

### Steadybrand

POWERED BY CUSTOM CHANNELS

Dealer-centric music streaming for multi-location businesses and enterprise brands.

Everything you need to win, launch, and grow accounts with a platform designed to support recurring revenue.

## PARTNER PORTAL

### One dashboard. Every client. Every device.

Deploy, monitor, and manage commercial audio across every location from a single platform.

Manage players, playlists, user access, and device inventory with real-time visibility across your entire install base.
